Web Page Update

Most update activity on the SEHAB web site has been regarding the Wild Salmon Policy issue. I have added many links and documents that have been submitted to us. As well, I have begun a new section about salmon and steelhead, using information that has already been submitted.

As a result of new technology and market pressure, our service provider has upgraded our account from 150mb of disk space (far more than we could use) to 750mb, an increase of 500 percent, so we have ample room for future growth.

We also have features available the we are not yet using such as:

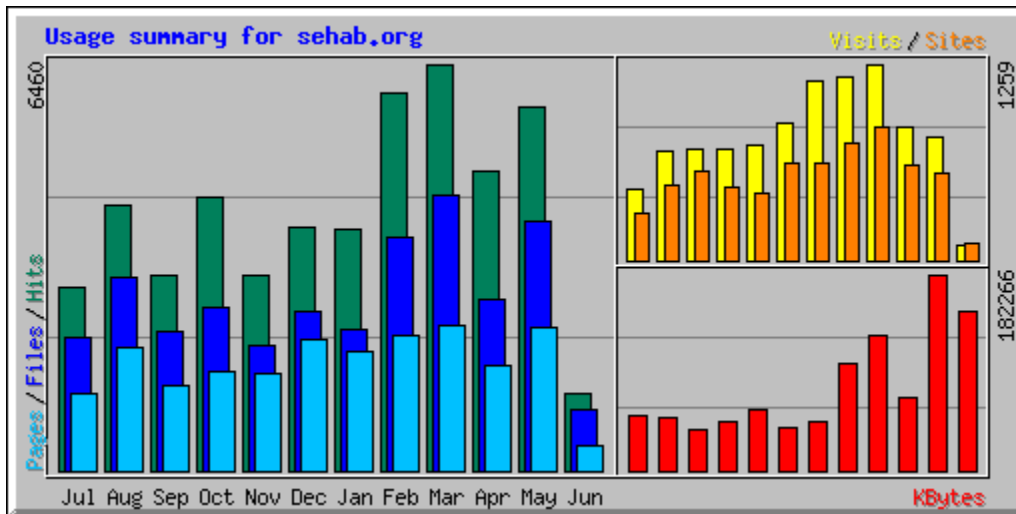

- E-commerce
- An appointment scheduler (for clients to make appointments with SEHAB, may not be applicable)
- “Blogging” ability
- Visitor counter
- Guestbook
- Ability to create a password protected section of the web site
- 19 @sehab e-mail addresses

Following this is a summary of activity on the SEHAB web site
